

BREATHER ADAPTER KITS.

OilSafe® Breather Adapter Kits allow breathers to be installed on any drum or storage tank, hydraulic fluid tank or reservoir, and gearbox. To prevent contamination, oil can be pumped in or out of equipment without opening it to the atmosphere.

BREATHER ADAPTER KITS

DRUM ADAPTER KIT

HYDRAULIC RESERVOIR ADAPTER KIT

GEARBOX ADAPTER KIT

Adapter Kits are available in a dark gray color and configured with Colorized Quick Connects* available in 10 familiar OilSafe colors or silver, no Quick Connects or Iso-b Quick Connects.

DRUM ADAPTER KIT

Drum Adapter Kits allow breathers to be installed on any storage tank or drum; there's never been a cleaner, more effective way to store, filter and pump lubricants from a drum. Its unique design ensures all fluid handling is managed through one adapter. Anodized aluminum adapters have colorized quick connects for pumping oil in and out of drum. Single-port access to the oil reduces contamination as drum remains closed. Offline filtration units easily connect to adapter without ever disrupting the performance of the breather.

HYDRAULIC RESERVOIR ADAPTER KIT

Hydraulic Reservoir Adapter Kits allow breathers to be installed on any hydraulic fluid tank or reservoir. Anodized aluminum adapters have colorized quick connects for pumping oil in and out, allowing the system to remain closed at all times and dramatically reducing contamination while improving oil-handling safety. Offline filtration units easily connect to adapter without ever disrupting the performance of the breather or opening the tank.

• DOMED FLANGE ADAPTER

Domed Flange Adapters provide a low profile yet rugged way to mount a 1" NPT breather to a hydraulic reservoir. Adapter includes a six hole ANSI pattern gasket and fasteners for perfect replacement of the bayonet flange and vent cap. The beveled surface directs spills and contaminants away from the opening.

GEARBOX ADAPTER KIT

Gearbox Adapter Kits allow breathers to be installed on any gearbox. Anodized aluminum adapters have colorized quick connects available in three sizes for pumping oil in and out without opening the gearbox to atmosphere. Offline filtration, oil changes and sampling can be handled through the adapter. They are a faster, simpler and cleaner way to handle gear oils and reduce ingress.

Adapter Kit Part # Configuration:

Adapter Styles

Drum Adapter = 960
Hydraulic Reservoir Adapter = 961
Gearbox Adapter = 962

+ Quick Connect Size

(Only for Gearbox Adapter - 962)

1 = 1"
12 = 1/2"
34 = 3/4"

+ Quick Connect Color

BG = Beige	PL = Purple
BK = Black	RD = Red
BL = Blue	SL = Silver
DG = Dark Green	YL = Yellow
GY = Grey	ISO = No Color (iso-b)
MG = Mid Green	NQ = No Connect
OR = Orange	

+ Quick Connect Type

(Do not add if NQ picked for Quick Connect Color)

M = Male

MF = Male & Female

(EXAMPLE: 960BGM - Drum Adapter, Beige, Male)

**Colorized Quick Connects have been inspected to ensure anodized colors are within OilSafe color spectrum scope. Color and shade can vary on anodized components; this will not impact performance of product.*
