

QuadCon™

REMOTE BULK STORAGE AND DISPENSING SYSTEM

OilSafe's QuadCon™ System is a fully integrated remote bulk fluid storage and dispensing solution, engineered for durability and high performance in demanding environments. QuadCon is designed with a complete color-coded workflow to minimize human error and reduce costly downtime.

QuadCon is compatible with low-viscosity fluids and handles lubricants with ISO grades up to 460. Designed for plant maintenance, it's ideal in Industrial Manufacturing, Mining, Construction, Cement, Military, and Food & Beverage Industries.

QuadCon is equipped with four 65-gallon tanks and Custom Identification Labels - use colors and labels as part of fluid identification to ensure the right lubricant goes into the right transfer container and the right machine. Each tank features a dedicated pneumatic pump and filter to eliminate cross-contamination—ensuring clean fluids reach your equipment.

- **Deployable Design** - Features integrated pallet construction for forklift compatibility, enabling easy transport by road or sea, ships pre-assembled for fast on-site installation and deployment
- **Customizable** - 65-gallon tanks offered in Red, Blue, Mid-Green, and Yellow—with Custom ID Labels
- **Durable Construction** - Built with powder-coated steel aluminum frames, color-coded durable tanks, and premium fittings
- **Certified Quality** - CSC Safety Approved Conex Box, and integrated spill containment that exceeds EPA SPCC standards
- **Advanced Features** - Includes 3-way inline filtration, an automatic shut-off dispensing station, and enhanced fire safety with MSHA accepted 811-HT rated hoses and emergency gravity-feed valve

REMOTE BULK STORAGE AND DISPENSING SYSTEM

PACKAGES:

- **1Q0400A** - QuadCon Bulk System
4 x 65 Gallon
- **1Q0400AQ** - QuadCon Bulk System
4 x 65 Gallon w/ Conex Box

INCLUDES:

- Aluminum Color-Coded Tanks
(Available in Red, Blue, Mid-Green,
and Yellow)
- Custom ID Tank Label (Per Tank)
- Level Gauge (2 Per Tank)
- Retractable Static Discharge Reel (Per System)
- ABC Fire Extinguisher (Per System)
- Auto Shut-off, Color-Coded Dispensing Taps (Per Tank)
- Flame-Resistant, MSHA accepted 811-HT Rated Hose
Assembly (Per Tank)
- Pneumatic Pump, and Filter (Per Tank)
- Desiccant Breather (Per System)
- Stainless Steel Suction Tube Assembly with Reinforced
PVC Suction Hose (Per Tank)
- Color-Coded Quick Disconnect and Dust Cap (Per Tank)
- Stainless Steel Drip Tray (Per System)
- 3-Way Filtration (Fill, Dispense, Recirculate)
- Built in Spill Containment/Compatible for Forklift Mobility,
Pallet Base
- Heavy-Duty Aluminum Conex Box - CSC Safety Approved
(**1Q0400AQ**)

*OPTIONAL ADD-ONS:

- **102105** - Push Package Resupply (QTY 8 - 5L Drums | QTY 4 - 10L
Drums | QTY 1 - Stretch Lid, Stumpy Lid, Utility Lid and Premium
Hand Pump in each color (Red, Blue, Mid-Green, and Yellow) |
QTY 1 - G5S1N Desiccant Breather | QTY 1 - 4/case Replacement
Filter Elements)
- Drum Label Kit (Red **207108**, Blue **207102**, Mid-Green **207105**,
and Yellow **207109**)
- **ZP22006** - Custom ID Label single sided tag, one per container

Specifications:

PART #	SHIPPING DIMS	EST SHIPPING WEIGHT
1Q0400A	8' long x 8' high x 5' wide	1800 lbs
1Q0400AQ	8' long x 8' high x 5' wide	3800 lbs

**QuadCon System available as a
standalone unit or prepacked with
a Conex Box.**

*Systems sold without Conex Box
are compatible with standard 8'
long x 8' high x 5' wide, or larger
shipping containers.*
